Extensively skilled in system integration across diverse domains, encompassing internal, external, and multiple types of integration methodologies, spanning SOAP, XML, REST, gRPC, and WebSocket technologies.
- Excels in time management in achieving a project.
- Upholds client confidentiality to the core of my priority.
- Hands-on experience with Webpack, Vite, and task runners like Gulp and Grunt.
- Proficient in Git, GitHub, GitLab, and working in Agile environments using tools like Jira and Trello.
- Familiar with unit and integration testing using React Testing Library, Cypress, and other testing frameworks.
- Expertise in integrating RESTful APIs for dynamic data handling..

EDUCATION

National Open University – Lagos, Nigeria.   **September 2021**

Computer Science.

BS.c.

PROJECTS

Field Support Portal Development – SmartApp Technologies.   **October 2023**

Field Support is a multi-tenant SaaS product, used by businesses for automatic ticket generation, customer support and tracking issue resolution both on the field and remotely. Built from scratch by a cross-functional team of 5 members consisting of backends, frontends, scrum masters and system architect. The product was designed and built as a cloud native application utilizing various cloud services such as Azure AI & Cognitive services, Azure maps and Google cloud services. The backend system is built using event-driven architecture, while the frontend administrative and configuration portal was built using Angular 17.

Website Development – ComzAfrica.   **November 2024.**

Website and CMS development for ComzAfrica. A company that provides credit facilities for utility services in Rwanda. The website is built with HTML, CSS, Javascript and React.

WORK EXPERIENCE

Mid-level Frontend Developer   **March 2023 - Present**

Cytech Consult (IT Consulting) – Lagos, Nigeria.

- Designed, developed, and maintained responsive web applications using modern frontend frameworks like React, Angular.
- Translated wireframes and design prototypes into functional, interactive interfaces, ensuring cross-browser and cross-device compatibility.

- Improved website performance through code optimization, lazy loading, and reducing bundle sizes.
- Collaborated with backend teams to integrate RESTful APIs endpoints for dynamic data handling.
- Used Git for version control, ensuring clean and collaborative code management across teams.
- Participated in daily stand-ups, sprint planning, and code reviews, fostering a collaborative Agile development environment.
- Created and maintained technical documentation for components, workflows, and best practices.

Intern   **August 2019 - January 2020**
Netop Business Systems (Payment Service Provider) – Lagos, Nigeria.
- Assisted in developing and maintaining web applications using HTML, CSS, and JavaScript.
- Worked on fixing UI bugs and implementing minor enhancements to improve application usability.
- Collaborated with senior developers during code reviews to learn best practices and improve coding standards.
- Performed basic testing and debugging of frontend components to ensure functionality and performance.
- Documented code changes, project progress, and best practices as part of team knowledge sharing.
- Quickly adapted to new tools, frameworks, and technologies used by the team.
- Participated in team meetings and Agile processes like daily stand-ups, sprint planning, and retrospectives.
